welcome to the green orchid

The Green Orchid pays homage to the “green” components of this building as well as to Marie Selby Botanical Gardens’ researchers who have been studying orchids—including the very rare green orchid, since Selby Gardens’ founding in 1973. The Green Orchid is set to be the first net positive energy restaurant in the world! Nearly 50,000 square feet of solar panels will generate enough electricity to not only power this restaurant, but all buildings on this side of the Manganroth Family Palm Promenade.

When you explore the delicious options on this menu, be on the lookout for dishes and drinks that contain produce from The Drs. Andrew and Judith Economos Rooftop Edible Garden overhead. The garden is planted and maintained for Selby Gardens by Operation EcoVets, a non-profit organization that provides personal, educational, and professional growth opportunities for military veterans.

The Green Orchid features a wine list offering international selections that use organic, biodynamic or sustainable practices, and many wineries powered by solar renewable energy.
