## **GLOBAL ICON PATTI SMITH BECOMES SELBY GARDENS' FIRST "ARTIST IN RESIDENCE"**

*Residency Announced at Encore Performance by Smith to Celebrate  
"Robert Mapplethorpe and Patti Smith: Flowers, Poetry, and Light" Exhibition*

**SARASOTA, Fla., April 29, 2022** – Poet, singer-songwriter, author, and visual artist Patti Smith has been named Marie Selby Botanical Gardens' inaugural Artist in Residence. The new relationship was announced by Selby Gardens President & CEO Jennifer O. Rominiecki on April 28 at a live performance by Smith at the Gardens' Downtown Sarasota campus.

Smith's artistic residency will include two return visits to Selby Gardens—one in 2023 and one in 2024—where she will combine public activities such as readings and performances with private time drawing creative inspiration from the organization's two bayfront campuses and world-renowned collections.

"Patti Smith is recognized worldwide for her revolutionary merger of artistic disciplines—especially poetry and rock," said Rominiecki. "All of us at Selby Gardens are deeply honored that she has accepted our invitation to be our very first Artist in Residence. Selby Gardens applies interdisciplinary practice to our ongoing exhibition program, and we feel that Patti's visionary methodology resonates with our organization on many levels."

Smith's blossoming relationship with Selby Gardens stems from the Gardens' current Jean & Alfred Goldstein Exhibition, "Robert Mapplethorpe and Patti Smith: Flowers, Poetry, and Light." The show, which runs through June 26, explores Mapplethorpe's flower photography and Smith's lyrics and poetry about flowers and nature, in dialogue with original horticultural installations inspired by their art.

Smith first visited Selby Gardens in February to tour "Flowers, Poetry, and Light" and perform songs and readings she selected to complement the exhibition. She called the interdisciplinary show "a beguiling exhibition" and said she "was very moved to be asked to be a part of it." Smith returned in April for a second live performance, at which the new residency was announced.

Both of Smith's visits and performances to date were sponsored by Selby Gardens Board Chair Marianne McComb and her husband, William.

### **About Marie Selby Botanical Gardens**

Marie Selby Botanical Gardens provides 45 acres of bayfront sanctuaries connecting people with air plants of the world, native nature, and our regional history. Established by forward-thinking women of their time, Selby Gardens comprises the 15-acre Downtown Sarasota campus and the 30-acre Historic Spanish Point campus in the Osprey area of Sarasota County, Florida. The Downtown Sarasota campus on Sarasota Bay is the only botanical garden in the world dedicated to the display and study of epiphytic orchids, bromeliads, gesneriads and ferns, and other tropical plants. There is a significant focus on botany, horticulture, education, historical preservation, and the environment. The Historic Spanish Point campus is located less than 10 miles south along Little Sarasota Bay. One of the largest preserves showcasing native Florida plants that is interpreted for and open to the public, it celebrates an archaeological record that encompasses approximately 5,000 years of Florida history. Marie Selby Botanical Gardens is a Smithsonian Affiliate and is also accredited by the American Alliance of Museums. For more information visit [www.selby.org](http://www.selby.org).
